

The Réseau Normand : A network of people with a passion for Normandy.

The independent association *Réseau Normand* manages the Normandy Network.

Our aim is to promote the bond between Norman people, in Normandy and around the world.

We help link individuals and other networks or clubs.

Who are the Normans for us?

Natives from Normandy or friends from abroad, Normans are united by a love for this special region.

Through involvement in the diverse social and economic sectors present in Normandy, Normans share their heritage with others.

They are enthusiastic about the projects of other Norman people and support them, each in their own way.

People of Normandy around the world

The Normandy Network

Celebrating the cultural heritage of the Normandy region in France

Advancing your personal and professional success

Réseau

Normand

The **Réseau Normand** is based on a love of Normandy :
Mixing an interesting cultural aspect with friendly meetings, we promote the development of your personal goals.

This network is a **Power Base** linking Norman people. Our ambition is to enhance the professional and private life of our members through their diverse interests:
Economics, sports, culture, arts (music, literature, theater, dance, movies...), training, research, associations, etc...

We target mainly managers and well-known people, or having a special knowledge.

Our aim is to link Norman people around the world.

The group began through networking dinners in Paris. Through continued growth, groups have been established in New York, Dakar and London. We are working to set up groups in Belgium, Luxembourg and Russia while consolidating our presence in France.

Interested in networking with Normans in your town? Let us know!

Key events:

All Normans are welcome: from Normandy or beyond.
